

How to find you MAC address in on Macbook

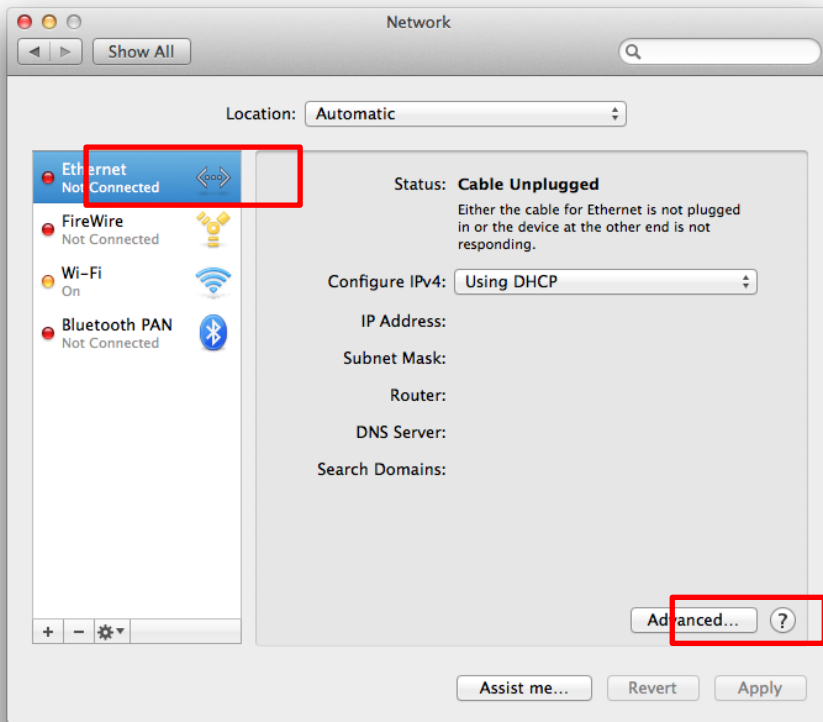

Click the **Apple** in the top left corner of the screen and then click on **System Preferences**

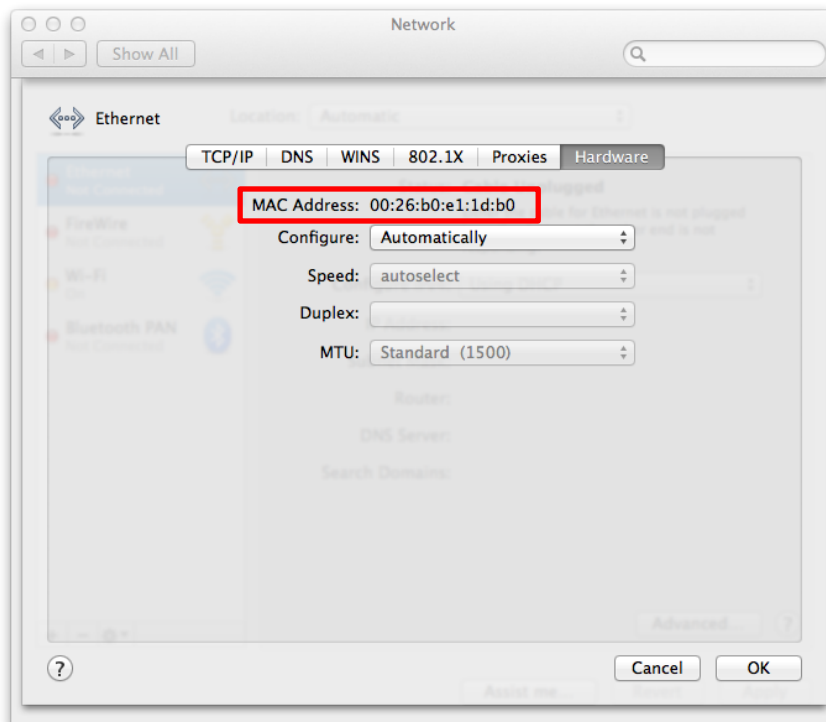

Click **Network** in the **System Preferences** window

For Ethernet/LAN Cable connection, select **Ethernet** in the list and then click on **Advanced...**

Select the **Hardware** tab, the MAC Address will be displayed

For Wi-Fi it's the same steps but the MAC address will be displayed on the Wi-Fi tab
