

# How do I install the Office365 applications on my Android device?

If you have a free Microsoft account or a work or school account with a [qualifying Office 365 subscription](#), you will have access to the app's [extra features](#).

1. Tap any Office app like **Word** to launch it.
2. Tap **Sign in** if you already have a Microsoft Account or an Office 365 work or school account.

**NOTE:** Or create a new Microsoft Account with any email address you already have by tapping **Sign up for free**.

3. Enter your personal Microsoft account or an Office 365 work or school account email address. Tap **Next**.

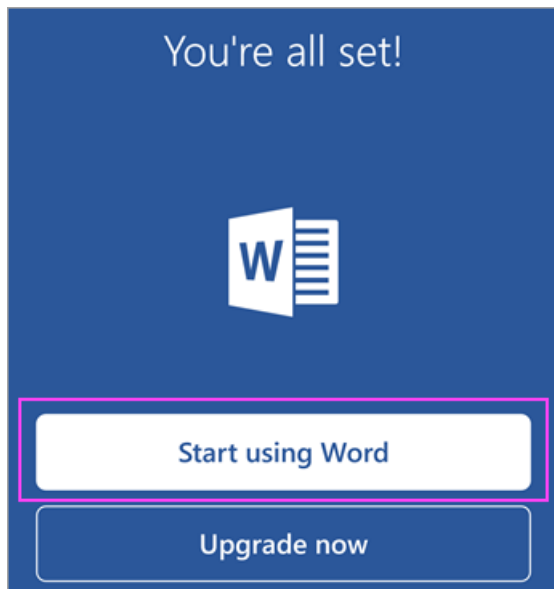

**NOTE:** For a new Microsoft Account, create a password and then follow the prompts to verify your identity.

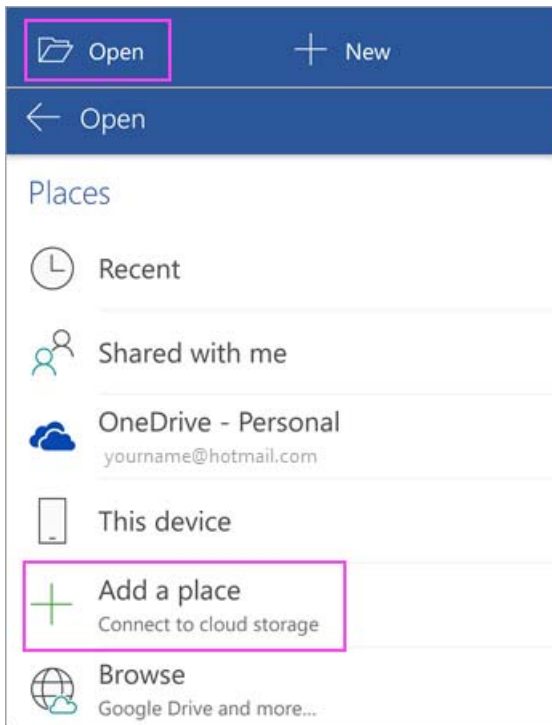

4. Enter the **Password** associated with your account, then tap **Sign in**.

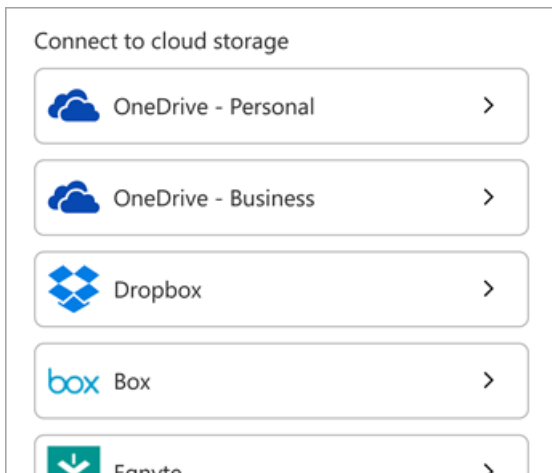

5. Tap **Start using Word** to get started with the app.  
If you have other Office apps installed on your Android device, your account and OneDrive files adds automatically.

6. To add a cloud service, tap **Open** > **Add a place**.

7. Choose the cloud service you want to add, such as OneDrive for business or Dropbox.

Enter your email address and password that you use to sign into that service. **You are done!**
